Dear Mirek,

I had a lovely birthday in Colorado. I went to the little town of Winter Park where I was living when I turned 30. As you know from my Reiki story.... I had a life altering insight of my life continuing until at least 60! So I wanted to find a vocation...something to do instead of playing. A couple of months later my mother called me about traveling with my grandmother! And the rest is history.

My housemate at the time is living in the same house and invited me to come and stay there. We had a wonderful time! I slept in my same bedroom and had a lovely party in the evening with my sister and her family, Joyce's sister, and some of my old Winter Park friends! The day of my birthday a friend of mine, Joyce, and a friend who is a guide went with me up into the hills on horseback. It was marvelous.

This is my 61st year! I have felt a circle has been completed and another one is beginning. Let's see where this one takes me!

Thank you for your birthday wishes! I wonder if I will see you in Estonia next May? Linda is organizing a weekend after the Alliance conference for me there...in Talinn.

with hugs,

Phyllis
